PROFESSIONAL SUMMARY

Final-year Computer Science undergraduate with experience in AI-driven systems, API debugging, and end-to-end project delivery. Skilled in translating business requirements into technical solutions using generative AI and prompt engineering. Seeking opportunities in **Project Management, Data Analysis, Prompt Engineering, and AI-assisted Technical Coordination.**

EDUCATION

Hooghly Engineering and Technology College <i>Bachelor of Technology – Computer Science and Engineering — CGPA: 7.08/10</i>	2022 – 2026 Hooghly, West Bengal
Vivekananda Academy <i>Higher Secondary Education</i>	2020 – 2022 West Bengal
Aditya Birla Vani Bharati <i>Secondary Education</i>	2007 – 2020 West Bengal

SKILLS

Languages & Technical Stack: Python, SQL, DuckDB, FastAPI, Angular, Linux, Git/GitHub, CI/CD Basics
Computer & Productivity Tools: MS Office Suite (Word, Excel, PowerPoint), Google Sheets, Postman, Technical Documentation
Testing & Quality Support: API Debugging (REST), Root Cause Analysis, Defect Tracking, Log Analysis, Manual Testing, Selenium Automation, Regression Testing, Test Case Design
AI & Prompt Engineering: ChatGPT, Gemini, Copilot, DALL-E, Prompt Design, LLM Applications, NLP Fundamentals, AI-assisted Project Management
Project Management & Delivery: Agile/Scrum, Sprint Planning, Requirement Gathering (BRD/PRD), Stakeholder Communication, Risk Analysis, UAT Coordination, WBS

EXPERIENCE

Team Lead & Project Coordinator <i>HackNITR 5.0 & DIVERSION 2k24 – National Hackathons</i>	2023 – 2025
– Led a team of 4 developers across 2 national hackathons – handled requirement scoping, task assignment, sprint coordination, QA validation, and delivery under 36-hour deadlines – Delivered KishanSeva (Devfolio) – Top 20 Finalist among 500+ teams (including IITs & NITs); also delivered MedInIndia (Devfolio), a healthcare platform, managing the full project lifecycle from requirements gathering to deployment – Maintained real-time progress tracking, resolved blockers proactively, and communicated project updates to evaluators and stakeholders	

PROJECTS

DataForge AI Studio – Python, FastAPI, DuckDB, Scikit-Learn, SciPy, Reflex	🌐 GitHub
– Developed an end-to-end AI analytics platform using DuckDB and FastAPI, implementing Random Forest regression for interactive "What-If" business scenario forecasting. – Built automated statistical anomaly detection using SciPy IsolationForest and automated executive PDF/PowerPoint report synthesis with Plotly visualizations.	
SmartDetect – Object and Anomaly Detection System Python, YOLOv8, Streamlit	🌐 GitHub
– Developed a real-time object detection system capable of identifying 80+ object types from images and video – Created technical documentation and structured reports demonstrating end-to-end project delivery	
Selenium Automated Web Testing Suite Python, Selenium	🌐 GitHub
– Built an automated web testing suite using Selenium for functional and regression testing workflows – Implemented automated test cases, browser interaction handling, and validation for improving QA efficiency	

CERTIFICATIONS

Google Project Management Professional Certificate – Google & Coursera Covered Agile Project Management, Scrum, Sprint Planning, Risk Management, Stakeholder Communication, and end-to-end Project Execution.	May 2026
Generative AI for Project Managers – IBM & SkillUp (Coursera Specialization) Learned Generative AI concepts, Prompt Engineering, and AI-driven Project Management using ChatGPT, Copilot, Gemini, and DALL-E.	Apr 2026
The AI-Driven Project Manager – LinkedIn Learning NASBA CPE Certified program focused on AI-assisted project workflows and modern project leadership practices.	Jan 2026
